

Linz Vienna Austria

User Interface Adventure

“Design and Development” of User Interfaces with GWT

We offer...

- ❖ varying and challenging tasks in a young, innovative team
- ❖ exciting assignments in cutting-edge technology fields and creative leeway
- ❖ work on national and international client and research projects
- ❖ (further) development of our product “m2n Intelligence Management Framework”
- ❖ optional university level research and/or PhD possibilities
- ❖ optimal working environment for individual development; near Vienna at the CodeFarm – which comes with pool and park
- ❖ self-determined, flexible working hours

You provide...

- ❖ BSc, MSc in computer science or equivalent
- ❖ excellent knowledge of HTML/CSS/Javascript/JQuery
- ❖ thorough knowledge in GWT/Java
- ❖ visual design skills and the desire to perfectly design the user interface before it is used
- ❖ an independent and proactive performance
- ❖ creative ideas to solve complex tasks
- ❖ the ability to assert yourself and the wish to work in an equal team
- ❖ fluent in either German or English

We pay according to Austria's collective agreement for IT and your skills.

We support you in any administrative issues, apartment-hunting and your relocation to Austria.
